Clarifying Information for the SE region Post Corrective Action

May 11, 2012

The following is in regards to additional clarification information to offerors in the SE region from the Department.

1. The offeror shall use a full five year performance period when preparing their final proposals. The period shall begin in the near future and end 5 years from the date of award. For example, if the new award decision is June 20, 2012, then performance will commence on that date and will end on or about June 19, 2017. Performance has been continuing in the Southeast Region. Such performance information, including consideration of cost impact of that performance, will be considered by the Department in its award decision.
2. Offerors should not assume that all weaknesses expressed by reviewers in prior evaluations are either no longer a concern or have been addressed by the current questions. Offerors are free to, and should make use of any information received to date in attempting to improve their proposals. Such information can include: prior technical and business questions; information and documents received during debriefings; information received during the bid protest; and also the attached questions.
3. Assume that your response constitutes your final proposal and that no further discussions will occur.
